### ENGLISH BUSY ON WALL STREET

Large Shipments of Securities Leave on Steamers This Week for London.

NEW YORK, July 30.—The reaction tendency from the rebound which developed in yesterday's stock market became more pronounced today under the play of the same forces of permit taking on the rise and satisfied demand of the reduced short interest. The Pearson syndicate statement also cast some of its influence on speculative sentiment. A fresh break in Sloss-Sheffield Steel to a lower price than yesterday renewed the feeling of apprehension over the integrity of its dividend. The violent fluctuations in the July wheat market were supposed to involve some protective liquidation in stocks.

Large shipments of securities bought for London account during the week are going forward by steamers sailing today. The effect is shown in the downward course of the foreign exchange rate which points to a continuance of the import movement of gold. The bank statement showed that relief from the week's liquidation has come to the trust companies and banks outside the clearing house, whose average loans contracted \$21,104,100, while the actual loan from the clearing house banks expanded \$20,258,800.

Bonds were irregular. Total sales par value \$694,000.

United States bonds unchanged on call.
